The new College System

As you are aware, we consulted parents/carers, students, staff and governors about proposals to change our pastoral structure and move to a partially-vertical pastoral system in 2015-16. This is for registration and form periods only. Students will continue to be taught by year group. Thank you for your contribution to this consultation process. Our governing body have now approved the proposal and we will introduce the ‘college System’ in September 2015. Our students have played a key role in preparing for the introduction of our new pastoral system in September. Members of the School Council have supported the pastoral team in making important decisions about the day to day organisation of the College system. Students had the opportunity to vote for the names of our three new Colleges and design an emblem to represent the inspirational woman each College is named after.

Rosa Parks College (vertically mixed Year 7 and 8 form groups)
College Learning Leader: Miss Adenike
Winning College emblem design – Samiya (7R)

Malala College (vertically mixed Years 9, 10 and 11 for groups)
College Learning Leader: Miss Perry
Winning College emblem design – Monique (10P)

Nightingale College (vertically mixed Years 9, 10 and 11 for groups)
College Learning Leader: Mr Perks
Winning college emblem design – Letarlia (10P)

Students in Malala and Nightingale College enjoyed working in their new form groups for the first time during our College Day on 24th June. This gave students the opportunity to find out more about Malala Yousafzai and Florence Nightingale. It was an enjoyable day culminating in a showcase event of the clothes, models and mosaics produced by each form group to celebrate the achievements of either Malala Yousafzai or Florence Nightingale.

We look forward to the introduction of the College System in September as it will provide similar opportunities for our students, from different year groups, to creatively work together to support and motivate each other to achieve their true potential.

Mr Connor-Hemming, Deputy Headteacher
60 Years of **Green and Gold**

A celebration of **60 years**

at

Hillcrest School

In celebration of the 60th Anniversary of Hillcrest School, we hosted a night of dance, drama, music, poetry and gymnastics. The theme was based upon changes throughout the decades in society and at Hillcrest school.

The night was a huge success and both Hillcrest students and staff involved should be extremely proud of their hard work in delivering such an action packed show. Parents/carers, friends, family and students of both past and present gave the night a fantastic atmosphere.

I would like to say a huge thank you to all the students who took part in the show:

Your dedication and hours of practice during lunch times and after school certainly made the show a very high standard.

A big thank you to all the stage hands and last but not least I would like to thank the following staff for their help and support: Miss L Taylor, Mrs G Berlyn, Miss C Reeves, Mr M Taylor, Miss S Perry, Mrs S Dugmore, Mrs J Penn, Mrs M Bunce, Miss J Taylor, Miss A Adenike, Mrs O Jones, Mr J Edwards, Mr G Gracie and all other staff who have kindly supported us.

*Miss L. Taylor*

Over the last 60 years Hillcrest has seen a number of changes, the school logo has changed:
The motto of the school is Latin ‘NON SINE PULVERE PALMA’, which translates as ‘No rewards without effort’

7th September 1954
The school opens to first and second form girls and twelve teachers.

13th July 1955
The school is officially opened by Sir Wilfred Martineau.

1960s
Sixth Form provision starts.

1970s and 1980s
The school building virtually doubled in size during the 1970s and 80s with the addition of an extra floor on the west wing and then later the addition of a new Science block, Sports Hall, Music block, Performance Studios and the Open Learning Centre.

Boys were allowed to join the sixth form during the 1980s.

1st September 1983
The school renamed Hillcrest School and Sixth Form Centre and dropped Grammar School status.

New Technology Block officially opened by The Rt Hon Jack Straw MP Home Secretary on 28th April 1998.

Multi Media Room opened by Suzanne Verdee
On 24th May 2004
Theatre Hall refurbished during 2004/5.
September 2005
Hillcrest School became a Specialist Maths and Computing College and Sixth Form Centre.

dotcom@hillcrest ICT Centre officially opened by Rt Hon Jacqui Smith MP on 27th April 2007.

lingua@hillcrest Language Village officially opened by Gisela Stuart MP on 4th May 2007.

The Theatre Hall renamed The David McCann Theatre Hall in 2010 in memory of David McCann, Chair of Governors between 1998-2010.

Over the last 60 years the school has seen the following head teachers:

Sonla Mackey 1954 to 1962
Audrey Jackson 1962 to 1970
Claudia Williams 1970 to 1985
Sandra Trotman 1985 to 1997
Mary Campbell 1997 to 2002
Lynda Roan 2002 to 2012

Julie-Ann Davies 2012 to present
Nepal Appeal

After the devastating earthquake in Nepal in April, it didn’t take long for Samiksha, Year 9, to spring into life and start the ball rolling for staff and students alike at Hillcrest School to raise money to help the survivors from the terrible tragedy. Samiksha is from Nepal and, therefore, has an attachment to the country and her passion inspired us all to help.

Initially she sent an email to the all the staff and almost straight away passing on a Just giving page so we could donate directly to the appeal. That was for starters. She then planned a speech for assembly and spent a week addressing the entire school in the hall explaining what had happened, why she was so involved and what she wanted us to do to help.

She didn’t ask for a lot. She asked for spare coins to be donated via various charity boxes that popped up around school. They were put in specific places for us to go and deposit what we could, but Samiksha and her friends from 9R Tong Wu and Kaci Le would take the boxes door to door at form time to encourage people to donate. They did this for about three weeks!

On May 8th the generosity of staff, students, friends and families across the entire school was more than evident when 9R organised a cake sale with the proceeds to go to the Nepal Earthquake Appeal. So many tasty treats turned up to be sold at break time that day. In fact there was so much to sell, it spilled over into lunch time as well. Teachers were spending £5 on one slice of cake, and so many Hillcrest girls said “keep the change” after they had purchased their goods. It was a lively, community spirited event which alone raised £160.

There was one more event that was put into place for the Nepal Earthquake Appeal after this and it was the only thing better than a cake sale, a non-school uniform day at the end of last half term. These three major fundraising events raised a huge £707 in total for the appeal.

Carol Andrews from the Redditch Lions visited us this week with the fantastic news that the money had been spent in Nepal on four Lifesaver Jerry Cans. These amazing pieces of equipment can sanatise 18.5 liters of dirty water from rainwater, to rivers, even puddles into perfectly clean and safe drinking water for an entire year. Hillcrest School raised enough money for four of them, and completely by chance, yet very symbolically, these Lifesaver Jerry Cans were distributed specifically to schools in Nepal.

Well done Samiksha for rallying us up and thank you to your friends, your form, your teachers, and everyone who donated and provided school children in Nepal with clean drinking water.

What a success!

Miss P. Calder
How can I support my child with their post-16 choices?
This is a question which is often asked at Parents’ evenings. All Year 11 students will have a careers interview with our Careers Adviser, Geoff Bown, during the Autumn Term. He will discuss your child’s choices of courses with them and guide them through every stage of the process from researching to completing application forms and from interview practice to accepting a place on a course.

Research - It’s never too early to start!
The best way to start is by sitting down with your child and making a list of courses that they are interested in and then researching which Colleges and Sixth Forms offer these courses or which Apprenticeships they are interested in. A perfect time to begin this process would be during the summer holidays so that your child begins the new academic year with a clear idea of the courses and Colleges or Sixth Forms that they are interested in.

Attend Open Days
In September, your child will be given a copy of the Open Days to all the local Colleges and Sixth Forms in the local area. It is really important that you visit the Sixth Form or Colleges that are on your child’s shortlist so that you can gain a better understanding of the courses on offer, transport arrangements and support available to students.

Application Forms
Many of these forms can be completed online but you can also email some forms and even print them off and post them. Your child might need some support in filling out these forms as they are all slightly different. It is really important that they fill in all the areas required, they write in a formal style and that they proofread their forms to identify any spelling or punctuation errors which they can easily correct.

Interviews
A couple of weeks after receiving your child’s application form, they should receive a letter or email which invites them to attend an interview. If this does not happen then your child will need to contact the College or Sixth Form for more information. Our Careers Adviser is more than happy to follow up applications. Year 11 students will be given help with their interview skills as part of their IAG day in November so that they feel confident when they go for their real College, Sixth Form or Apprenticeship interviews.

Offers
Following the interviews, your child will hopefully be offered a place on the course at their chosen College or Sixth Form. It is sensible to accept several offers so that they have a range of courses to choose from when they receive their results in August 2016. The Careers Adviser will do follow-up interviews with students who are still struggling to find a place.

Results Day
On results day in August, our Careers Adviser will be available to support your child with any last minute applications to Colleges, Sixth Forms or Apprenticeships.
**September Guarantee**

At the end of September, we are required to compile a destination list to ensure that all our students have begun a Post-16 course or an Apprenticeship. In order to do this, our Careers Adviser will call the various Colleges, Sixth Forms and companies. In the unfortunate event that your child has begun a course but has dropped out due to various reasons please be reassured that we will still help them to find a place at another educational institution or training provider.

*Miss R. Eddins*
*IAG Learning Manager.*

---

**IAG DATES FOR YOUR DIARY**

**Friday 4th September 2015 - Find out about Apprenticeships**
Matt Franks from Gordon Franks Training will be available at the Year 10 and 11 Progress Review meetings to talk to you and your child about Apprenticeships.

**Monday 14th September 2015 - Year 9 IAG Activity**
Year 9 students will work in small groups with our Careers Adviser to use the Kudos computer programme which helps students to complete an audit of their skills, identify future careers and access more information about qualifications.

**Tuesday 17th November 2015 - Post 16 Open Evening**
This is a great opportunity to get an overview of the range of courses on offer for Year 12 and 13 students at Hillcrest School and across The Oaks groups of schools. It is also an ideal time to talk to subject leaders about the courses in more detail.

**Thursday 19th November 2015 - Year 11 IAG day**
Year 11 students will be developing their interview skills so that they are fully prepared for their College and Sixth Form interviews in the coming months.

**Friday 20th November 2015 - Year 11 trip to The Skills Show at the NEC**
This is the largest careers event in the UK. It provides students with a great opportunity for students to gain an insight into many different careers by speaking to training providers and companies face to face and accessing relevant information.
Attendance Matters

I would like to take this opportunity to say ‘Thank You’ to parents / carers for their on-going support with ensuring their child attends school every day. Our whole school attendance figure for 2014-15 is 95.68%. Our whole school attendance figures have improved year upon year as outlined in the table below. We are now consistently above the national average for whole school attendance.

<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>93.66%</td>
<td>94.7%</td>
<td>94.51%</td>
<td>95.38%</td>
<td>95.86%</td>
</tr>
</tbody>
</table>

During this academic year our ‘Unauthorised absence’ figure has fallen. Again thank you to those parents / carers who have provided relevant medical evidence to confirm the reasons for their child’s absence from school. In addition, our ‘Persistent Absentee’ figure (students below 85%) attendance remains below the national average.

I must, however, remind parents / carers that Hillcrest School operates within the Local Authority’s Spotlight Campaign to improve whole school attendance. As part of this process three parents have received ‘Fixed Penalty Notice Fines’ ranging from £60-£120 (per parent) for failing to provide appropriate medical evidence to explain their child’s absences from school. In June 2015 one family was unfortunately taken to court for failing to ensure their child attended school each day. One parent was fined £535 and the other parent was fined £425 as they failed to provide appropriate medical evidence to authorise their child’s persistent absences from school.

I would once again like to thank our parents / carers for their on-going support and co-operation in ensuring their child attends school each day and look forward to this continuing in 2015-16.

Getting It Right

The ‘Getting It Right’ system moved to a points based system in September 2015 with students required to achieve a minimum of 3,500 points in Years 7-10 to achieve a Bronze Award (previously 92%) and 3,000 points in Year 11. Students earned 5 GIR bonus points each lesson if they arrived on time, behaved appropriately, brought the correct equipment and ensured homework was completed to the best of their ability. Students who achieved the GIR bronze certificate will earn a place on the annual GIR trip in October.

Our students have worked tremendously hard this year to achieve fantastic results this year with 95% of students earning at least 3,500 GIR bonus points by 30th June.

Students are ranked in a league table in each year group. Here at the ‘Top 10’ GIR Winners in each year group:

<table>

The Friends of Hillcrest (PTA)

We need you......

The Friends of Hillcrest is a group of parents, grandparents, friends and staff who organise fund raising events to support the school. Events include the 50:50 Club, sponsored walks, car boot sales and our famous ‘Christmas Market’. The PTA also access any local community grants that might support the school.

The money raised by these events supports the school in providing extra resources to enhance student’s experiences. In recent year’s money raised has been spent on extra-curricular clubs such as environmental club, jewellery club, choir, steel pan groups, sports groups and performing arts evenings, all of which enrich the social and cultural life of the school.

The greatest area of support over the years has been for the ‘Getting It Right’ rewards system. Fund raising pays for badges, prizes and trips that form a key part of the GIR system.

The group meets just four or five times per year for about an hour each time to plan the fund raising events and new members are always welcome and much needed to support this important work.

Thank you

Thank you to all our PTA members for their hard work in 2014-15 and an especially big thank you to Mr Bryan Jones (Chairperson) and Mrs Clare Jones (Secretary) for their hard work over the last five years. Mr Jones is stepping down as Chairperson at the end of this term and I would like to say a big personal thank you for the huge commitment and tireless fundraising which has raised approximately £5000 to help our students in the last five years.

A big thank you to Mrs Wilcock who has offered to continue the PTA work as acting chairperson from September. We all look forward to events in the autumn term with a sponsored walk planned for early October.

Are you a parent, carer, relative, former student or current sixth form student at Hillcrest. If so the Friends of Hillcrest PTA needs you...
Speak to Ms Davies, Mr Connor-Hemming, Mr Abbotts or Mrs Wilcock for further details.
Email jmann@hillcrest.bham.sch.uk or mrswilcock@gmail.com
Year 10 students go horse riding

Year 10 Asdan group gave up their Saturday afternoon to experience horse riding. Students attended Hole Farm next to Woodgate Valley. The horses were exceptionally well behaved and a great experience was gained for all the students involved.

My experience horse riding by Hadia, Year 10

I went horse riding with my Asdan group to Woodgate Valley Country Park. We had to change our shoes into wellies and wear safety hats. My horse’s name was Lulu and she had black and brown fur. We had to sit on the horses; we did this by climbing onto a stool. I was really scared because I had never sat on a horse before. Every time I tried to sit on it kept on moving. Miss Reeves told me not to be scared so I made my final jump and was able to get on. When everyone was on their horses we rode through the park with a supervisor leading the horse. It was really good fun. When we came back we all had smiles on our faces and everyone on a horse was whispering how fun it was and how much they would love to come back! After the horse riding, we then went and looked at the animals in Woodgate Valley Farm. It was a really fun day and I would love to do it again!

Blackwell adventure weekend trip 2015

I had the pleasure of taking 20 students camping for the weekend at Blackwell adventure. Unfortunately, the weather was not on our side but that did not stop us from having an amazing time and taking part in all the brilliant activities of zip wire, 3g swing, rock climbing, grass sledging, go karting, Jacobs ladder, multi scramble, swimming and the trapeze. Many of the students conquered their fears and it was great to see the high levels of effective communication and team work.
Blackwell Adventure review by Angel

At Blackwell adventure we were able to experience many different things such as grass sledging, 3G swing, and crate stacking. Each of these daily activities were very exciting and something new for all of us. Many activities gave us an adrenaline rush and we were very determined to have a go at all activities. Each day we had our own chef to cater for us: breakfast, lunch and dinner and the food was delicious. Overall, we got to gain knowledge in many different outdoor adventurous activities and we all had the chance to create a life-lasting memory. Having spent Friday to Sunday there, we made new friends with students in other years at our school and we had a really enjoyable time. I especially liked our camp fire and really enjoyed swimming! Thank you Blackwell adventure!

Kingsbury Watersport Centre

On the 30th June 2015, a group of year 7-9 students embarked on a day of water sports activities at Kingsbury waterpark. Students took part in kayaking or sailing and raft building. The weather was perfect for a day on the water and for many students this was the first time they had taken part in such activities.

My review of a day at Kingsbury Water Park by Paris, Year 9

On Tuesday 30th June, some students from years 7 to 9 went on an exciting water sports trip to Kingsbury Water Sports Centre. It was very enjoyable and thrilling, the first activities were either Kayaking or Sailing. I participated in the Kayaking activity, and unfortunately I fell in!

Then, secondly, we had such a fun time, building rafts. This was really enjoyable, and many people fell in! It was okay though because we had wet suits and buoyancy aids on so we knew we were safe. It was a great trip and we all want to go back again next year.

Year 8 Athletics Team compete at the Level 3 School Games

Congratulations to the Year 8 Athletics Team who won their level 2 competition against local schools and were selected to represent our local area at the level 3 school games at Alexandra stadium. Students warmed up with British athlete, Harry Aitkins-Areety and watched a display of pole vaulting from another GB athlete, Sophie Cook. Many of the girls gained personal bests during the competition and gave excellent performances. The competition this year was of an extremely high standard resulting in Hillcrest finishing a respectable seventh place across all the schools in Birmingham. Well done girls!
Year 9 athletics team complete in the Super 6’s competition

Congratulations to the Year 9 students who competed in the Super 6s athletics competition. We had some great results, in particular Chantelle, who finished first place in both the long jump and the 800 metres and Taddisha Thomas who also won the javelin and the 200 metres. We are currently awaiting confirmation of the results but we are extremely hopeful of a first place position! Congratulations to Chantel and Taddisha and also Kennedy, Emily, Shian, Jordan and Vicki.

Taddisha

Many congratulations to Taddisha, who represented Birmingham South and West at the West Midlands Championships. She was selected for both the shot and discus events and finished in fifth place in both.

This is an exceptional achievement as the competition is open to athletes from as far afield as Wolverhampton, Solihull and Walsall. Taddisha is one of a number of very talented students who we hope will be able to develop their talent through links with local athletic clubs.

Level 2 Rounders Competition at Hillcrest School

This year Hillcrest hosted the U14 and U16 Level 2 rounders competitions. We were very fortunate with the weather for both competitions and our teams played with lots of enthusiasm and skill. The U14 team performed better than expected as they had few opportunities in the run up to the competition to practise as a team. They finished as runners up; a few lapses in concentration when fielding cost them the game. The U16 team gave an excellent performance. The fielding for the most part was slick and efficient and once the team had warmed up, the batting was tremendous. Well done to both teams, the U16 are now the representatives for the area at the Birmingham School Games.

Hillcrest Level 2 Primary Rounders Competition

Congratulations to all the primary school teams who entered the Hillcrest Primary rounders competition. There was a high standard of play with some exceptional batting and fielding skills. It was an extremely close competition with only one rounder the difference between the winners and the runners up. This year the winning team was Woodhouse Primary school who will now represent the area at the Birmingham School games. Runners up were St. Chad’s Primary school, who did extremely well in their first rounders competition.
Hillcrest Primary Olympics Competition

The sun was shining as Hillcrest hosted its annual primary school Olympic Competition. The day started with an opening ceremony of schools parading their banners around the school track, followed by morning and afternoon activities of football, handball, rowing, tennis, dance and athletics. The day was very enjoyable for all students and staff involved. I would like to say a big thanks to all staff who helped run the event and big congratulations to Harborne Primary School for finishing first place overall closely followed by Northfield Manor Primary School. I would also like to thank Paganel, St Michael’s, Woodgate, Welsh House Farm and Watermill for making it a special day for all.

Hillcrest School Sports day

Unfortunately, due to the burst water pipe at school, we were unable to complete sports day. However, the event will be rescheduled for the start of September to kick start our new sports college system. Watch this space for more information.

Miss L. Taylor & Miss C. Reeves
Calling all parents! We need you!

We would like to hear from parents who are willing to come into school and talk to students about their jobs, skills and qualifications. You could choose to give a talk to a small number of students (approximately twenty) about your current job for a thirty minute session, which would include some question and answer time or speak to a whole year group in an assembly (approximately one hundred), which would be for about 20 minutes.

We would provide you with a microphone and access to a projector should you wish to show a Power Point during your talk.

Our students love to find out about different career pathways and understand the qualifications and skills that are necessary for jobs in 2015.

If you would like to volunteer to give a talk then please get in touch at the following email address: reddins@hillcrest.bham.sch.uk

Miss Eddins
IAG Learning Manager
Year 9 Radio Cars

“I feel the need, the need for speed!” (Top Gun 1986)

**Exciting Engineering!**
On Monday 29th June 2015 Alan Leighton from Active Learning Support visited Hillcrest School to engage Year 9 students in careers in Engineering. Alan began the sessions by challenging the students’ misconceptions about engineering such as the fact that up to 40% of modern engineers are now women and that the average mechanic is not a man in overalls covered in oil and grease. Students also learnt that the average Formula 1 Team does not just consist of the 12 mechanics that change the wheels in the pit-stop but a staggering 1,400 people who work trackside and behind the scenes doing a wide variety of jobs such as designing parts for the vehicle, marketing, road testing and manufacturing. After the initial talk and question and answer session, students chose their groups for the activities. Each team leader selected their groups and then they had to change two tyres on the Radio Controlled Cars whilst being timed. The fastest team managed to do this in 28 seconds which was really impressive.

Students were then given some training on how to use the remote controls to make the vehicles go forward, reverse and change direction. It was then time to practise on the track before completing a three lap race. Students were informed that one of the largest employers in the region is Jaguar Landrover who are growing rapidly as a company and who are really keen to employ more female engineers in their company. Overall, it was a really enjoyable activity that certainly opened the students’ eyes to the wide range of careers involved in the field of engineering in 2015.

Here are some of the students’ comments about the day:

“I enjoyed the tasks that were set. It was very interesting and it got your mind working.”
“What I liked about this experience is that we got to work in groups and change the car wheels. It made us realise that we can actually work together in a team.” Shian

“I didn’t realise how many women worked in the engineering business! I was inspired and learnt how to beat my father in toy car racing!” Alarna

“I’ve learnt more information about engineering. I had the chance to work in groups and learn how to change a tyre. It was really interesting and fun!” Kaci

“A great experience that was fun and Interactive! I learnt a lot about engineering and future opportunities in engineering.” Kennedy

*Miss Eddins*

A Message from the Headteacher

Thank you to our students, staff, parents/carers, and school governors for all your hard work this year. Have a safe and happy summer break, and I look forward to seeing you all in September for another busy year.

Best wishes
Ms J. Davies
