

## Year 10 and 11 Homework Timetable 2016 -17

At Hillcrest we recognise the importance of homework in developing students' knowledge and skills beyond the classroom. The setting of regular, meaningful homework will help each child to make good progress and to succeed in their examinations.

Homework will be set and explained in class, but also posted on [showmyhomework.co.uk](http://showmyhomework.co.uk). All students and parents have a personal log in to the site. All deadlines for homework will be clearly visible on the individual student's homework list.

Subject	Time allocation per fortnight
English	2 x 80 mins
Mathematics	2 x 80 mins
Science - Year 10	3 x 45 mins
- Year 11	4 x 35 mins
All Options	3 x 40 mins
R.E. short course	1 x 60 mins

### Additional notes:

- Students in Year 10 and 11 are expected to spend an average of two hours per night on homework.
- In addition to homework set by subject staff, they are expected to spend approximately twenty minutes on reviewing their day's lessons or revision. This is included within the two hours.
- In some subjects a longer project or extended piece of homework may be set. This will be the case for many BTEC and Foundation Learning courses. This may last for up to half a term. In this case the homework will be broken down into short term goals to allow students to manage their time.
- The pattern of homework may change at certain times of the year e.g. before examinations and coursework.
- Options are as indicated below.

### Year 10

Option A	Option B	Option C
